Dear Members of the Roosevelt Community: Students, Parents, Teachers and Staff

It is with the greatest enthusiasm that I introduce myself and my new team as your Principal and Assistant Principals for the 2017-18 School Year. Our team has dedicated the summer to learning all about our school and community, and what we have experienced has truly impressed and humbled us. We take great pride in stepping into this new role with such a dynamic group of people – both young people and adults.

We, too, bring unique experiences and great passion for this work to our new role. You will find us to be champions of student achievement, creativity, voice and leadership. As Principal, I take no greater pride than when I watch our students step into their roles as both leaders and learners; taking responsibility for themselves and our community.

I believe there is no limit to what we can and will achieve at Roosevelt High School. We are committed to making every day important and better than the last. We will learn from both our successes and our failures, to become a community that reaches the highest expectations.

I look forward to the year ahead and many more to follow, and your generosity in inviting myself and my team to share in this exciting time of life. We know you will make us, your teachers and your parents very proud.

Every day - my very best,

Daniel Kramer
